Key Stage 4 Pupil Progress

Progress 8 Explained

This score shows how much progress pupils at this school made between the end of Key Stage 2 (end of the primary phase of education) and the end of Key Stage 4, compared to pupils across England who got similar results at the end of Key Stage 2. This is based on results in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including sciences, history, geography and languages, and 3 other additional approved qualifications.

The average Progress 8 score for **all** pupils in 'mainstream' schools in England is 0. Most schools score between -1 and +1. A score above zero means pupils made more progress, on average, than pupils across England who got similar results at the end of Key Stage 2. A score below zero means pupils made less progress, on average, than pupils across England who got similar results at the end of Key Stage 2.

Key Stage 5

The progress of students is the focus of the accountability system. At Key Stage 5 this is a Value Added progress measure that is formulated for academic and vocational qualifications, as well as providing a combined figure. The VA measure shows the progress that each student makes between Key Stage 4 and the grades achieved at level 3. This is a comparison with actual progress made by students nationally who had similar levels of attainment at Key Stage 4. This score is expressed as a proportion of a grade above or below the national average.

The attainment measure is indicated by the average score per entry and is expressed as separate average grades for academic and vocational qualification.
