

Mathematics from Home

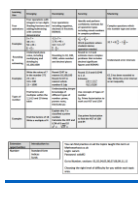

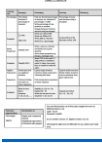

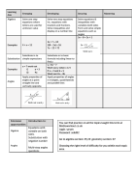

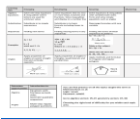

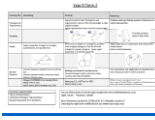

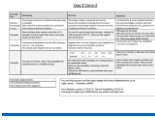

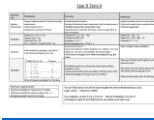

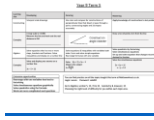

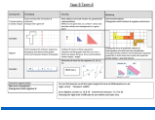

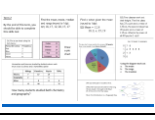

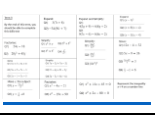

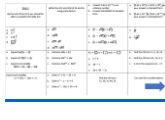

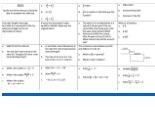

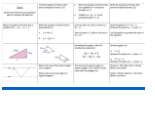

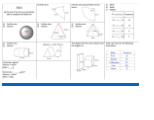

Year 7 – Year 10

It can be very difficult to access Maths without a specialist teacher to guide you, so we have come up with a couple of ways you can approach your learning when working for temporary periods at home.

Firstly, take a look at the pupil sheet relevant to your Year group and the current term, this shows the work the class is completing along with examples of what that may look like. In the bottom right hand corner, we have given the section of mathsworkout you can practise this work from. All the exercises are self-marking so all you need to do is write out the questions, show your working out and mark as you go. We then ask you to submit your work to your teacher.

If you feel you are struggling with working independently on this then go to our core skills section instead.

Pupil Sheets

Year 7	Term 1 	Term 2 	Term 3 	Term 4 	Term 5 	Term 6 
Year 8	Term 1 	Term 2 	Term 3 	Term 4 	Term 5 	Term 6 
Year 9	Term 1 	Term 2 	Term 3 	Term 4 	Term 5 	Term 6 
Year 10 Foundation	Term 1 	Term 2 	Term 3 	Term 4 	Term 5 	This term is allocated to consolidate term 1-5 learning ahead of end of year exams
Year 10 Higher	Term 1 	Term 2 	Term 3 	Term 4 	Term 5 	

Core skills

There are two levels to work through; we recommend that you check in with level 1 first before moving on. All the topics selected are key to your development and progression in Maths and practise in these areas are always encouraged. When you are completely secure on everything in level 1, you should move to level 2.

Each topic has links to practise questions and in most cases further support. As always, please write the question, show your working out and mark as you go. Finally submit your work to your teacher.

[Core Skills Level 1](#)

[Core Skills Level 2](#)

Year 11

The best plan for you is to work your way through the booklets on mathedup

<https://www.mathedup.co.uk/gcse-maths-takeaway/>

It has everything in order from Grade 1 all the way to Grade 9, with past exam questions and answers. It also has links to videos so a great one stop revision site. Please do check out our '[How we do Maths](#)' content on the website as this will have the methods we teach in class, which will be more familiar to you than some of the methods on the videos.

Finally.....

We are always here to help, please contact your class teacher via messages on class charts should you need any further assistance and we look forward to working with you back in the classroom soon
