

Curriculum Intent Statement – ‘A life in all its fullness’

Our curriculum will enable students to effectively acquire and apply knowledge and skills. It will be balanced and ambitious, yet appropriate in its breadth and depth, embracing the awe and wonder of the world. It will develop a student's sense of self, others, and place. Grounded in respect, our curriculum will inspire students to be ambitious, strive for excellence, and develop the character to achieve their God given potential.

Curriculum Implementation Statement

The development of knowledge and skills will be delivered coherently and sequentially, based upon the practice of the MLP Principles of Teaching. Approaches to pedagogy will endeavour to make ‘things’ matter through teachers’ passionate delivery, by making learning relevant and contextual, through provocation, through challenge, and through experimentation. Students must demonstrate what they have learnt through independent application and will be supported to ‘seek meaning’ in what they have learned or do not fully understand.

Our curriculum is firmly rooted in the core values of respect, ambition, and excellence. Shaping an educational experience that nurtures character, advocates own beliefs, inspires achievement and empowers students.

Curriculum Impact Statement – ‘Well rounded individuals’

By the time they leave Sarum Academy, our students will be able to communicate effectively and solve mathematical and scientific problems. They will be able to express themselves artistically, creatively, and imaginatively. They will be confident in speaking another language, understanding their place in history, and recognising their place in the world.

Our students will be able to appreciate different faiths and capable of exploring their own spirituality. They will understand what is right and wrong, and value other cultures and traditions. They will be reflective, adaptive, and positive in their mindset, capable of making informed choices that positively impact on their wellbeing and the wellbeing of others. They will be able to lead safe, healthy and active lifestyles.

Ultimately, our vision is that they pursue ambitious goals, lead purposeful lives, and make a lasting impact on society.
